# INTRODUCTION

---

Want to know the most reliable way to turn a girl on and make her desperate to wrap her legs around you? Well, in this eBook, I'm going to show you a secret method that you can use to inject hot sexual tension into any conversation with a woman and practically overload her mind with uncontrollable desire to the point where she wants nothing more than to touch you and kiss you and let you take complete control over her body.

This method is so easy to use that even the most ordinary guy can use it to ignite deep sexual urges inside a woman's mind. In other words, you do not need to be a 6-foot tall male model with a six-figure income to make this work.

The secret sauce to all of this is flirting. In fact, research done at Webster's University shows that good flirting is the number one most effective way to spark attraction and it trumps all other factors like height, physical appearance, age, and income.

And what's more, you can even use this flirting method on a woman who previously had no interest in you or only saw you as a friend. And within minutes, you can unleash that raw sexual chemistry that's been missing between the two of you and finally make her see you as a potential lover or boyfriend.

# CHAPTER 1: FLIRTING - THE GATEWAY TO DESIRE

---

Okay, so let's say a woman liked you at first, but she seems to be losing interest now, or your girlfriend or your wife starts acting cold and distant. You can use this flirting method to instantly reignite and amplify her desire to a whole new level. And once you do, she will rush back to you and treat you better than ever, and beg for your attention.

Additionally, if you're after a really gorgeous girl who has like hundreds of rich and handsome men talking to her every single day and going after her, you can use this flirting method to stand out and turn her on so much and so fast that she has no choice but to ignore those other guys and instead lust after you and you alone.

Now, I know that I am making a huge, almost outlandish promise to you, but it's a promise that I am comfortable making because I have seen this method work for thousands of men in the past. More importantly, as a woman myself, I know what good flirting can do to a girl. That intoxicating rush of feelings, the steady rise in sexual attention, even the most normal guy can seem like James Bond or Christian Grey to us if he can flirt the right way.

## CHAPTER 2: MEET MARNI - THE MASTER OF ATTRACTION

---

So as you continue to read this eBook, I will show you exactly what good flirting feels like to a woman, why it's the ultimate key to unlocking her attraction and, of course, I'm also going to reveal the simple flirting method that you can start using right away to make women crave you sexually. But first, I'm going to answer one very important question that may be on your mind right now, and it should be on your mind. The question is: Who the hell is this woman and why should I even listen to her?

Well, my name is Marni, and I am an internationally renowned attraction expert and also known as the world's number one wing girl. Over the last couple of decades, I have taught thousands of men just like you how to attract the women of their dreams without changing who they are or using any sleazy pickup lines or tactics or really adjusting anything about themselves.

As a result, I have been featured on several renowned Publications like Forbes, Men's Health, and Men's Journal, and ask men along with several television appearances on networks like CNN, NBC, CBS, FOX, and MTV.

And today, my YouTube videos, blog posts, and podcasts are viewed by millions of guys from around the globe every single month, which is pretty cool, right? But most importantly, I am still as obsessed about helping good men like you attract the women you desire as I was when I started.

## CHAPTER 3: THE SCIENCE OF FLIRTING

---

I promise, in the next few minutes, I am going to do just that. Okay, so here's what it feels like for a woman when she's flirted with the right way. So think of the last time you were on a roller coaster. There was like this rush and mix of emotions, wasn't there?

The jittery feeling in your body as you climb up that hill, your heart beating so loud you can hear it in your ears, and when the drop comes, you feel it deeply in your stomach. You feel exhilarating adrenaline, almost like you're flying without wings. And afterwards, you are elated, you're brimming with energy and ready to do stuff you wouldn't normally do.

Well, that's exactly what women experience with good flirting. Whether it's a guy we just met, a guy we only see as a friend, or even a guy we've been with for a very long time, creating that roller coaster experience is all it takes to turn us on and get us in the mood to escalate with you to that next level. So here's why that happens.

When you're riding a real roller coaster, you experience the scary emotion of falling, that literally elicits the fear of death. But because it's safe, and it's in a controlled environment where you won't actually die, that allows you to enjoy it.

Now, that's exactly what good flirting does too. It produces that same emotional mix of danger and safety within a girl's mind, which makes it exciting for her to escalate with you. You say and do things to arouse her emotion, but it's all done in this safe, controlled context of playfulness and camaraderie. And as a result, she's turned on, her guards down, her logical mind steps out of the way, and she is ready to let out her sexual side.

And when you know the right way to flirt, you can create that roller coaster feeling in any situation you like, with any girl you like, and it will always activate her sexual urges no matter what type of girl she is because this is a biological reaction all women have.

## CHAPTER 4: THE F-FORMULA REVEALED

---

Once that emotional roller coaster is created, her "ape" brain feels safe and at ease with you, but at the same time, she's excited and turned on in your presence. So you can easily make your move on her without coming off as creepy or getting rejected.

In fact, she will be so desperate for you to make a move on her, she will amp up her own flirting, show more affection and interest towards you, and start giving you all the signals to go for it, to take her, to make her yours.

And what's even better is that even if a girl gets approached 50 times a day, there is still a low chance she'll encounter even one guy who can give her that safe roller coaster experience, which is something she needs in order to feel sexually aroused.

So that means, as you continue to read this book and discover my simple and effective flirting method, you will be instantly placed among the top 1% of men who approach women the right way. In other words, you'll have a massive upper hand over most guys competing for the women that you want.

And you will be among the few who can ignite attraction and escalate with a girl without facing instant rejection, which I think is pretty amazing.

And the best part is that this method is so ridiculously easy, you can master it over a short weekend. And words cannot describe how excited I am to reveal it to you and unveil it to you today.

It's literally been years in the making. You see, until recently, I had a problem that prevented me from teaching guys how to flirt. I wasn't able to see outside of myself.

I was never able to pinpoint what was so effective about good flirting, so I could put it into methods and strategies that can actually help men learn it. But then I met my amazing wing girl, Marissa, and all of that changed.

Marissa has the uncanny ability to pinpoint exactly what makes us girls respond to your flirting with intense and immediate attraction.

She could take even the shyest, most insecure, and most average-looking guy and help him land the most gorgeous, amazing woman with absolute ease, all because she had the art of flirting down to a science.

And she explained every technical nuance of creating that emotional roller coaster in the most simple and elegant detail that clarified everything for guys in our coaching sessions.

And I was shocked that she could teach guys how to flirt in ways that I've been trying to get my fingers on for years.

And that's when I had an idea. I asked Marissa to put her flirting method into a step-by-step formula that any guy can follow to become an expert at flirting. And she did.

Now, this is the first time I've let anyone besides me create a Wing Girl product.

And for very good reason: frankly, most women do not understand their own attraction consciously enough to teach it to guys.

They give the typical BS advice that most women give, that doesn't really help, totally confuses men, and actually makes guys a little bit worse.

But when I saw the results Marissa got for the initial coaching clients of her F Formula, she over-the-top impressed me.

## CHAPTER 5: MASTERING THE F-FORMULA

---

So, college kids, grown-ups, divorced men, and even guys in long-term relationships were using her formula to either create or revive sexual desire within the women they pursued or were involved with for a long time.

And the effect it has had has been absolutely shocking. Her flirting method could turn women on so much so fast, it felt unreal.

And what's even better is that her step-by-step formula only involves three phases of conversation, which basically implies that any guy can use it to go from hello to the bedroom, or a relationship, or whatever you want to take it to, in a very short period of time, without complicating things.

She drew from decades of research, observing, questioning, and testing her findings on women of all kinds. Using concepts from neuroimaging and evolutionary psychology studies to amplify its effectiveness, she analyzed, probed, and examined over 10,000 real women for this; most of them didn't even know that they were under the microscope.

And she performed her formula to the point where it was absolutely bulletproof, meaning any guy, no matter how much he has struggled with women all of his life, could use this formula to hook a girl's interest, arouse her emotions, and get her eager to be with him.

And once the formula was perfected, we even tested it again so that there was no room for errors.

But even now, the results were still the same.

Once the guys in our test group started using the F Formula, girls would laugh at their jokes more, they would linger around them longer, they would flirt back with them, and touch them, and be eager to escalate with them, when before, their interactions went almost nowhere.

And it all came down to the three distinct phases of flirting Marissa outlines in her formula.

You see, when you guide a woman through these three phases of flirting, she cannot help but experience sexual feelings towards you.

As you go through these three phases, the sexual tension keeps rising in the conversation, and when it reaches boiling point, well, you know what happens.

Whether you want her to give you her number, a kiss, go on a date, or whatever you want, she is going to be ready for it without signs of resistance.

And the only problem is, most men don't even realize that these three phases of flirting exist. But fortunately, you can choose not to be one of them.

You can choose to leverage Marissa's flirting method instead, and give yourself the power to attract any woman that your heart desires.

Because after keeping it fairly secretive and only showing it to our private coaching clients, we are finally revealing all of it, everything you'll need to become a flawless flirter, in a potent information-packed course rightfully named the F Formula.

# CHAPTER 6: ADVANCED TECHNIQUES AND HIDDEN SECRETS

---

This written course outlines Marissa's flirting method in complete detail and breaks it down into simple, logical steps that any guy can understand and master almost overnight.

And it shows you what the three phases of flirting are, and how to guide a woman through them so you can ignite her desire and give her uncontrollable urges to escalate sexually with you.

And if reading is not your thing, I also have an audiobook version of the F Formula filled with extra information from me, since I can't just read advice out loud without adding in my extra little tidbits.

So as you go through the F Formula, you'll be directed to exclusive instruction videos, MP3s, action guides, and over \$300 worth of bonus content.

And that's been specifically designed to solidify this girl-attracting information into your brain for good.

So even if you still have approach anxiety, once you know the skills to make the interaction go well, mustering the guts to approach is a thousand times easier.

So this program can help you no matter where you are at.

When you grab your copy of the F Formula today, here are just a few of the things that you are going to discover inside:

## Core Learning Objectives:

- The foundations of flirting, even if you can't flirt your way out of a paper bag, we'll lay out the essential groundwork you'll need to trigger that spark in her eye that tells you it's on.
- How to make physical escalation as easy as counting to four. Want to escalate with her? Kiss her, touch her, or get more physical? Just check in with these four points. If they're all there, you can be absolutely certain she'll be ready and willing to go further with you, making you rejection-proof.

## Advanced Insights:

- You'll also learn the hidden female behaviors you need to recognize to flirt properly. So when you can identify these, you'll always know when she's enjoying your presence, what she needs from you to feel attracted, or when she's secretly dying for you to touch her. And these are not so obvious, so you need these.

# CHAPTER 7: THE ULTIMATE FLIRTING TOOLKIT

---

## Avoiding Mistakes:

- You'll also learn the conversation mistakes that close women off to you sexually. If you make one wrong move in conversation, it is game over, and you will lose the girl. I'm sorry, but that's true. And Marissa details what you need to avoid each phase that's preventing you from igniting that holy type of attraction with just a few words.

## Overcoming Flirting Roadblocks:

- You're also going to learn the two flirting roadblocks most guys are completely blind to. So you have to avoid these like the plague or you risk being condemned as a pal or a perv. Once you know them, they're obvious, but until you find out what they are, you'll undergo the same frustrating rejections over and over and over again.

## Under-the-Radar Techniques:

- You'll also learn how to attract her under the radar. So when you know this, the girls in your vicinity will be completely drawn to you, and they will not be able to explain why. What results is the "there's just something about him" effect that captivates and drives women just bunkers.

## Emotional Engagement Techniques:

- You'll also learn how to create an emotional roller coaster, which we talked about before. Doing this will make her mind constantly preoccupied with you even when you're not around. But it's done differently depending on the phase that you're in. Once you know this, you will spark instant attraction, and she will be addicted to being around you. Trust me.

## Eliciting Attraction Signals:

- You're also going to learn how to elicit her attraction signals for each flirting phase. These assure that she's ready to escalate to the next phase with you and allow you to push the limits in totally safe and comfortable ways for her. They're easy to remember, simple to do, and dangerously effective.

## The Boomerang Technique:

- You're also going to learn how to keep her drawn to you with the boomerang technique. This is my favorite. This technique grows her attraction for you on its own, independent of what you do or say. So she feels your absence when you're not around and always boomerangs back to you in social situations.

## Understanding Age-Specific Dynamics:

- You'll also learn the one key difference between women in their 20s and women over 30. This allows you to flirt immediately, resonate, and go through all three phases of the F Formula with any woman of any age, no matter how old you are.

## Overcoming Last-Minute Hesitations:

- You're also going to learn how to check all of her boxes. We will show you how to dispel every one of her possible anxieties and last-minute hesitations about going further with you, so you'll never get those all too common surprise rejections at the last minute when you thought things were going well.

## Comprehensive Support Materials:

- This amazing program alone will give you more options, greater satisfaction, and remarkable results in your dating life. And Marissa and I are so excited for you to experience that. And I am determined to knock off every single hesitation you may have to trying it out, which is why when you order this program right now, you will instantly get seven exclusive bonuses in addition to the F Formula.

## CHAPTER 8: TRANSFORMATIVE SUCCESS STORIES

---

Now, I bet you are wondering, "Alright, Marni, how much is this going to cost me? An arm and a leg?"

So, before I answer that, let me ask you a quick question.

How much money do you already spend on women with no guarantee that they will like you?

Taking a girl out to dinner can cost you like \$50, \$70, even \$100 or more.

And even after all that, she may not be one bit attracted to you.

When you go out to bars or clubs to meet women, the entrance fees can exceed \$60 or \$70, with drinks that can boost up to \$150 or \$200.

And most guys spend all that and still go home lonely and unhappy. And not only that, some guys will buy women gifts like jewelry, cars, and even pay their college tuition, and girls still don't feel attracted to them one bit.

So, think of all that money that you may have potentially already spent to meet women to no avail.

How much would it be worth to you if I could show you right now what will really make your girl problems vanish forever?

If I could tell you everything you need to know to spark visceral attraction in any woman that automatically ignites whenever she's around you?

If I could clarify everything that makes girls eager and excited to go to that next level with you, just by being you?

Before you answer that, I want to read you an email from a recent F Formula graduate of mine named Kyle.

"Marni, you and your team are the absolute best. After spending a few days analyzing the F Formula, I took a girl home the first night I tried it out. It was seriously so mind-blowing seeing the F Formula playing out before my eyes, and for once, I didn't have to pretend to be confident because I knew exactly what phase I was in and what needed to happen next. Believe it or not, she non-verbally rejected me a few times with her cues, but by bouncing back between the phases and staying smooth, I kept the night alive as I could tell she wanted to make sure she was simply safe with me. All my life, I have been flirting without any physical touch or bantering; boy was I lost." - Kyle

Okay, now this program isn't just for guys who want to have one-night stands; it's for guys that want it all, who want options. And that's what I want to give to you, guys who want to finally have women feeling that intense sexual desire for the women in their lives.

Like Chris who said this: "It's on! I'm on my second marriage and bought the F Formula because I decided this time around to do things differently. Last time I totally messed up when I stopped dating my wife and made things boring. I totally forgot to keep flirting and then I forgot how the F Formula helps keep me sharp and on my toes, and is making my wife feel head over heels for me. I think this may be the best purchase that I've ever made."

Awesome, right? Okay, or like Graham who said this:

"Two days ago, I was but a humble man quarantining at home with his wife and wondering whether he could make it to 2022 without losing his mind. I discovered the F Formula program through YouTube, I gave it a 50% chance of being completely useless because that is how many online self-help products I have purchased over the years. Anyway, I paid for the F Formula program because the price was low enough that I was willing to take the risk. The results have been absolutely incredible. The steps that are laid out in the book are very intuitive and easy to remember. I feel much more confident interacting with my wife because I know that if I make a mistake, I can just return to phase one and work my way back up."

"I feel like I finally have the power to give her the connection she's been waiting for so long. I am really looking forward to our future together. The experience of reading and listening to the materials was painful at times, the prospect of paying for the privilege of having a group of women lecture me about how I'm screwing up my sex life does not sound particularly appealing to me or I think to any man who is struggling in their relationships with women. However, I stuck with it, and I'm very thankful that I did. I would continue rambling on about this product, but my wife is interrupting me and demanding that I go for a walk with her, hold her hands, and maybe make out with her in the park. She says I told my friend not to come with us because I want us to spend some special time together. What the hell? She has never spoken to me this way at any point in the last six years."

"So, thank you so much for creating this product and transforming my marriage, and you did it in under 48 hours which is amazing. Sincerely, Graham. Sorry, I get excited when I read these again 'cuz just makes me feel good."

So, I ask you again, how much would it be worth to have the freedom of choice with women, with the women you want to be the selector instead of the selectee?

The truth is most guys would easily pay thousands of dollars for that kind of knowledge.

If I could wave a magic wand and give you all that, I bet you could find \$1,000 for it too.

I bet that you could find \$2,000 or \$5,000 to attract women as effectively as the F Formula lets you.

But I would never ask you to pay that because that's just not who I am.

Marissa worked hard on this; she wants as many guys as possible to experience its amazing results and I agree.
